Dear Mr. Odell:

I have made an attempt to get the information which you asked for in your letter of a few weeks ago. Mr. E. M. C. Hobbs, 2507 College Avenue, of this city, seems to be the only one who knows anything about what was done with the extra copies of the histories published by B. F. Bowen. He thinks most of them were sold as "junk." He bought the old accounts of the firm, and thinks he may be able to gather up perhaps a half dozen or more of the Carroll County history. I suggest that you write him, if he has not already written you.

Trusting this information is what you desire, I am

Sincerely

Lucy M. Elliott
Assistant Director
